X **The Principal's Desk**

Through the four and a half eventful decades of its history, Sapatgram College has celebrated the quest for expanding the landscape of learning. It could be made possible because of untiring efforts of students, learned teachers and its well-wishers.

It is said 'if you are planning for a year, sow rice; if you are planning for a decade, plant trees; if you are planning for life time, educate people'. Indeed, one can even say that quality of education will determine the destiny of the nation. For me, education does not mean providing answers. It means equipping the students with the means to find the answers for and within themselves. Education empowers students to discover themselves –within each student is an aspiring professional, a creative thinker and a socially aware citizen. It is our endeavour to help the students realize their potential.

While the College provides a blend of academic, cultural, intellectual and sports resources, it also brings to the dynamic environment for the overall development of their personalities, aspirations and talents. Records in the past years show that Sapatgram College was able to make its students responsible individuals having a global outlook. The credit for this goes mainly to my predecessors and the teaching faculty. My constant endeavour has been to hold true to their extraordinary vision and innovate in my own way to take this college to further glory.

Of late, a sea of change has been observed in the global scenario where Human Resource Development (HRD) has enjoyed the ultimate importance. It is the key factor for the development of a Nation. We are fortunate that our country has the world's largest youth population despite having a smaller population than China. A little concentration and proper planning can change the scenario. To contribute in this effort we have taken the initiative of empowering individuals by imparting adequate training and orientation through seminars, workshops, computer education and to accelerate this momentum, the college is offering a common platform of exposure to all aspiring individuals in bringing out optimum quality of human resource.

It is our vision that Sapatgram College shall be at par in academic excellence with global standard, which can be translated into practice with full cooperation of our students and learned teachers. We believe to educate our students with newer innovations which they will cherish for the rest of their lives and leave a legacy behind for everyone who follows them.

I welcome all students who will be joining us this year. It will be our endeavour to make their say in Sapatgram College fulfilling, enlightening and memorable. Our task is to make sure that when our students walk out of the portals of the college, they will go out into the world as worthy beings.

I strongly believe that the flag of Sapatgram College shall be flying higher with its past glory and a future promise.

Long live Sapatgram College.
